ABOUT THE BOOK

Teach your child the ABC's with this hilarious and rhyming journey through the alphabet, where each letter unveils a new layer of mystery, from aliens to government cover ups.

As a family, you can decode the enigma of the Illuminati, unravel the mysteries of the moon landing, and explore classic conspiracies, all while learning the alphabet.

Take your child down the rabbit hole with captivating illustrations and offbeat tales that will tickle your funny bone and arm you with the "facts" of 26 conspiracies for the next family reunion argument.

C is for Conspiracy is the ultimate alphabet adventure that turns learning into an exciting conspiracy crash course.

U is for UFO

The ABC's of All Things Alien

by Matt Baker & Louie Foxx · Illustrated by Avijit Sil

ABOUT THE BOOK

Teach your child the ABC's with this hilarious and rhyming journey through aliens, unexplained phenomena, and legendary UFO sightings. Each letter explores the strange, the curious, and the slightly green.

As a family, you can investigate crop circles, decode secret space signals, and explore classic UFO encounters, all while learning the alphabet.

With captivating illustrations and playful verses, U is for UFO sparks imagination without being scary, making it a giftable, highly browsable title for curious young readers.

The companion volume to C is for Conspiracy.

ABOUT THE BOOK

A faux textbook that teaches real skills. The only school where balancing a broom on your face, flipping an oven mitt, and turning a towel into a chicken can land you on the honor roll.

Part comedy book, part practical training manual, The Academy of Unusual Skills teaches more than 100 strange, silly, oddly impressive tricks using everyday objects, from coin snatching and card throwing to hat tricks, snack stunts, science illusions, juggling, and balancing.

Written by professional comedian, stunt performer, and three time Guinness World Record holder Matt Baker, it combines step by step instructions, faux academic nonsense, and over 350 illustrations.

For curious kids, bored adults, and teachers looking for genuinely fun activities.
